Dynamics 365 for Talent helps businesses hire the right people, faster, with an engaging candidate experience, connected interview tools, and LinkedIn integration.

It helps businesses simplify the candidate evaluation with visibility into LinkedIn profiles throughout the hiring process and improve communication with LinkedIn InMail, assessments, intelligent interview scheduling, mobile feedback, and offer management.

Win top talent and set them up for success

Transform talent acquisition

Reimagine the hiring experience by connecting recruiters, managers, and interviewers to better collaborate and attract top talent. Tailor processes with configurable stages and activities, then easily create compelling job descriptions and post them to career sites.

65% of recruiters said that a **lack of skilled candidates** is their **largest obstacle** to hiring.¹

Find the right people with LinkedIn

Easily connect with the world's largest talent marketplace—LinkedIn Recruiter System Connect (RSC) allows you to seamlessly access real-time candidate information. Recruiters and hiring managers can now save time, collaborate, and improve talent sourcing.

61% of employees say the **realities of their job differ from expectations** set during the interview process.²

Empower hiring managers

Enable hiring managers to take ownership of the selection process with talent pool tracking, visibility into candidate profiles, interviewer assignments, simplified interview scheduling, mobile feedback, and offer management tools.

87% of HR and business executives say that **culture is the most important to business success**.³

Build high-performance teams

Enable recruiters and people managers to quickly screen in and shortlist candidates with skill, personality, and culture-fit assessments. Candidate profiles are compared to job requirements to intelligently highlight top applicants and improve quality of hire.

Only 15% of employees are **highly engaged** in their jobs.⁴
